DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on July 26, 2007 has been fully considered and entered.

Reasons for Allowance

2. Claims 23-35 and 38 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest all the limitations recited in claim 23. Specifically, the prior art of record fails to disclose a device for storing and handling optical waveguides comprising a frame and fiber guiding elements for optical fibers are provided on at least to one vertically running narrow side of the frame and wherein the fiber guiding elements generally extend in an outward direction relative to the frame in combination with the other limitations of claim 23.

Claims 24-31 depend from claim 23.

The prior art of record also fails to disclose or reasonably suggest all the limitations recited in claim 32. Specifically, the prior art of record fails to disclose a device for storing and handling optical waveguides comprising a frame and a drawer that is guided in the frame and can be pulled out in the horizontal direction from a first vertically running narrow side of the frame, the drawer being arranged in the pushed-in

position between the splice cases arranged on the front side and the splice cases arranged on the rear side of the frame, the drawer configured for storing uncut multi fiber buffer tubes of optical fibers in combination with the other limitations of claim 32.

Claims 33-35 depend from claim 32.

The prior art of record also fails to disclose or reasonably suggest all the limitations recited in claim 38. Specifically, the prior art of record fails to disclose a device for storing and handling optical waveguides comprising a frame, a plurality of splice cases arranged one above the other on a front side and on a rear side of the frame and pivotably fastened to the frame, wherein the guiding channels are arranged such that at least three interlinked and overlapping circular guides are formed in each splice case, and further wherein the circular guides are aligned in relation to one another such that the circular guides merge tangentially with one another in a central portion of the splice cases as recited in claim 38.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
